

Transcript – Ai-Media Example

SPEAKER:

One of the most amazing moments I remember was when Freddie was lying down on the forest floor and went to sleep and he was cradling Oscar in his arms. Oscar was lying on his back and he was looking up at the canopy, but he looked as though he was contemplating life. I mean, it looked so human in the way that, you know, people would lie on a hammock, perhaps, and they would just think about things.

(Inspiring orchestral music plays)
